

CENTRAL INTELLIGENCE AGENCY

4 October 1977

NOTE FOR: ADDCI

Jack:

STAT It appears to me that [] task force has accomplished a necessary job effectively and comprehensively. I have no changes to suggest.

I concur with DDO's recommendation that you issue this as a temporary policy statement and refer it to DDA for conversion to an appropriate Headquarters regulation. However, I wonder if the members of EAG other than DDO should also have a crack at it. It is not necessary to have an EAG meeting, but it could be distributed to the members with an announcement of your intention and a request for any suggested changes before you promulgate it. Please let me know how you wish to proceed.

FYI - the suggested DDO changes appear unobjectionable.
